I urge the FCC to reject the NAB's petition 04-160 and support XM radios ability to provide these services, "XM Instant Traffic & Weather" as well as other services that "I PAY FOR", and feel that the FCC has no right to infringe on my right to PAY for a service and then try to regulate it in this product they produce and provide. Can't broadcast radio/TV compete and improve their marketed services and product without the fear of good ol' American competition? I, as stated previously, enjoy the XM Radio I listen too. I also oppose this petition, 04-160 and any other infringement on my first ammendment rights. I also oppose HR 4026 for exactly the same reasons.
